Storm Select

The Storm Portable Basketball Goal is designed for use in a gymnasium, fieldhouse, multipurpose facility or recreational complex.

The Storm portable basketball hoop is adjustable. Height adjustments from 10' down to 6' are made easily with the Storm's spring-aided design. To adjust, simply pull the pin located on the adjustment rod, raise or lower the unit as needed and replace the pin.

The distance from the backboard to the base on all Storm portable basketball hoops is 5'6" with the rim at the regulation 10' height and a minimum of 4' can be maintained at all lowered positions. The Storm is the only portable basketball backboard with a telescoping extension. Heavy foam padding, available in an array of colors, protects players on the front, sides and back of the basketball equipment. The unit is extremely stable as well as durable, and will not tip over when players hang on the rim.

Floor load on the wheels is:
Rolling - 325 psi
Stationary - 325 psi

A variety of basketball backboards ranging in size from 36" x 60" to 42" x 72" are available on the Storm. This allows the unit to be customized for a wide scope of applications and budgets.

Every Storm Portable Basketball Goal package comes with a Lifetime Superior Warranty.
